“ *So many memories, it's hard to even express them here. The entire Sharp family was like a second family to me growing up. I ate with them, went to church with them, laughed with them and occasionally heard an argument or two.*

Kevin was my best friend from about the age of 12 to the around 19. I can't quite remember. Greatest memories include playing baseball behind #6 school or whiffle ball in the backyard on Passaic Street.

We used to go up to Two Guys all the time to play those fancy new video games like Pong. Our favorite though was Air Hockey.

For some stupid reason once, we decided to cast a fishing line out onto Passaic Street, and we actually hooked onto the bumper of a moving car. I called it city fishing and said we caught a big one.

Kevin and I both started learning guitar at about the same time. We had some great times with the Folk Group at Most Holy Name Church.

I can actually go on and on forever here, but I just want Mrs. Sharp (I still can't call her Pat), Robert, PattyAnn, Kitty, and of course the love of Kevin's life: Kim, to know that I am thinking about you and praying for you in this very difficult time. God bless all of you and God bless my friend Kevin.
